

**Appendix 13: Fieldnote guidelines for student volunteers attending the Durobrivae (Water Newton) metal detecting rally**

- Locations of activities (e.g. out in field, in marquee, near bar, etc.)
- Times and dates
- Context (if possible), e.g. whether event is occurring as a result of another event or activity
- Apparent body language
- Actual actions observed
- Positive or negative reactions to:
  - You
  - Other metal-detector users
  - Other archaeologists
  - The TV crew
  - Archaeology (itself as a concept and discipline – do they understand/care why we are doing what we are doing?)
- Language/phrases used
- Your personal response to the situation – how it makes you feel, what impressions you take from the experiences.
